Art Unit: 1616

Claims 1-24 are pending in this application.

Applicant's election without traverse of the invention of Group I in Paper No. 6 (1/9/02) is acknowledged. Applicant's further election of VDacac in Paper No. 8 (4/4/02) is also acknowledged. Because applicant did not distinctly and specifically point out the supposed errors in the election of species requirement, the election has been treated as an election without traverse (MPEP § 818.03(a)).

Claims 6-8, 11-14 and 16-24 are withdrawn from further consideration as being directed to non-elected subject matter. Claims 1-5, 9-10 and 15 will presently be examined to the extent that they read on the elected subject matter of record.

Claims 1-5, 9-10 and 15 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. Independent claim 1 is confusing – it appears that in line 2, “amount” should be inserted after “inhibiting.”

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless -

(a) the invention was known or used by others in this country, or patented or described in a printed publication in this or a foreign country, before the invention thereof by the applicant for a patent.

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

Art Unit: 1616

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Claims 1-5, 9-10 and 15 are rejected under 35 U.S.C. 102(b) as anticipated by or, in the alternative, under 35 U.S.C. 103(a) as obvious over WO 00/35930.

WO 00/35930 explicitly discloses cancer treating efficacy of VDAC (also designated as VCP<sub>2</sub>(acac)). See p. 2, lines 6-10; paragraph bridging pp. 13-14; p. 30, lines 21-22; p. 39, first paragraph; Table 5 on p. 68, line 25; claims 1-2, 5, 31, 33.

While the cited reference does not explicitly state that the cancer treating efficacy is obtained through inhibition of angiogenesis, it is the Examiner's position that killing or inhibiting cancer cells would necessarily encompass inhibition of angiogenesis. See, e.g., In re May, 197 USPQ 601, 607 (CCPA 1978); In re Tomlinson, 150 USPQ 623, 628 (CCPA 1966); Ex parte Novitski, 26 USPQ2d 1389, 1390-91 (Bd. Pat. App. & Int. 1993); In re Kirby, 40 USPQ 368 (CCPA 1939). The claims are thereby anticipated or at the very least rendered obvious.

For these reasons all claims are refused. No claim is allowed. Applicant is advised that several references were crossed out on PTO-1449 because a copy of the references could not be found in the case file contents.
